# About us

Leading provider in project management and turnkey process engineering solutions

**RAP Tronic** offers full engineering services and turnkey projects from planning, design, manufacturing, supply and setup, to commissioning and after-sales service. Quality of the services is guaranteed throughout the entire production process, from the moment the raw materials enter the plant, to the last stage, when the technological process is completed.

# Our stronger points

## FLEXIBILITY

---

We constantly learn from the projects we deliver and from our clients. That's why it's easier for us to understand the challenges of a new task and to adapt to the beneficiary's specific needs regarding technical solutions, delivery terms, customization, and costs.

## TAILOR MADE

---

There are no two identical projects we deliver. And the fun part of our job is to always find specific answers for every assignment we receive. We work closely with clients to understand their needs and develop personalized solutions.

## SEAMLESS PROJECT MANAGEMENT

---

Complex missions involve multiple departments, engineers, and technicians, various languages, and even different working approaches. We take care of it all by understanding the big picture, organizing tasks and workers, evaluating risks, and avoiding dead ends.

# Our services

## PROJECT MANAGEMENT

- Project Documentation
- Disassembly, packing, and loading of equipment
- Equipment Transport
- Unloading, unpacking, and assembly of equipment
- Plant/Factory Integration
- Production Line start-up and upgrading

## INSTALLATION

RPE performs mechanical, insulation, and electrical installations by experienced, EU certified professionals. We're also EU certified to perform: Argon, CO2, Electrical, and Autogenous welding.

## RELOCATIONS

We offer full plant/factory relocation services worldwide for equipment transfers in the food and beverage, chemical, and pharmaceutical industries. Our plant/factory relocation experts work safely and efficiently to ensure the shortest possible production downtimes.

**Worldwide projects. We love challenges.**
